Connect2Court
Legal Automation Solutions

Faster Service = Lower Debt

Connect2Court works with Loebsack & Brownlee to offer expedited process service & best-in-class legal software tools to multifamily professionals.
Our goal is simple:
Expedite the legal dispossessory process to reduce bad debt.

Dispossessory Service

Connect2Court is Atlanta's #1 Dispossessory process service firm and consistently achieves **the fastest service timelines in the market.**

Why service is important:
In Georgia, a dispossessory case cannot proceed until the tenant has been served with the dispossessory warrant. This means **slow process service can cost an owner *thousands* in lost rent every month**. Work with Connect2Court and we'll get it served in *days,* not weeks.

System Integrations

Seamlessly send delinquent tenant data to your attorney using Connect2Court's **RealPage OneSite and Yardi Voyager integrations.** Delinquent tenant data is automatically pulled into your dashboard and is ready to send to Loebsack & Brownlee with a single click.

Why automation is important:
1. *Eliminate Human Error:* Case data is 100% accurate to what's in your database.
2. *Eliminate Delays*: File in a few minutes, on time, every month.
